MEMORANDUM

TO: NATCA Members

FROM: John S. Carr, President 

DATE: July 1, 2006

Federal workers play a huge role in the quality of American life. From keeping us safe when we travel to helping deliver vital support to the elderly and disabled, hard-working federal employees make our lives better in hundreds of different ways every day.

Federal employees are also good citizens of their communities, with thousands involved in volunteer community activities in their neighborhoods and communities across the country. One way they help support vital non-profit community services where they live and work is by contributions through the Combined Federal Campaign (CFC).

The CFC enables contributors in the federal sector to direct their contributions to the specific non-profits that are doing good things in the contributor's community. Donor choice allows federal employees to give to those charities that are worker-friendly and making a difference in the lives of working families.

NATCA members are invited to consider a contribution to the NATCA Charitable Foundation or another charity of your choice. For those members who reside in locations where the NATCA Charitable Foundation is located (Houston, Dallas, Jacksonville, Miami, Atlanta, Northern Virginia/Southern Maryland), the donation code is listed in the annual CFC pamphlets you will receive. Members who live outside these areas should contact Cathy Meachum at [devildog-texas@att.net](mailto:devildog-texas@att.net) to obtain the necessary paperwork.

Whatever choices you make for yourself and your family, I encourage all NATCA members who can, to participate in the 2006 Combined Federal Campaign in support of high-quality human services in your own community.
